MoSKito Control

by Leon Rosenberg
@dvayanu
BED CON 2014

Who am I?

- Leon Rosenberg - Architect, DevOps.

- 1997 - Started programming with Java.

- 2000 - Started building Portals.

- 2003 - Founded anotheria.net.

- 2007 - Started MoSKito.
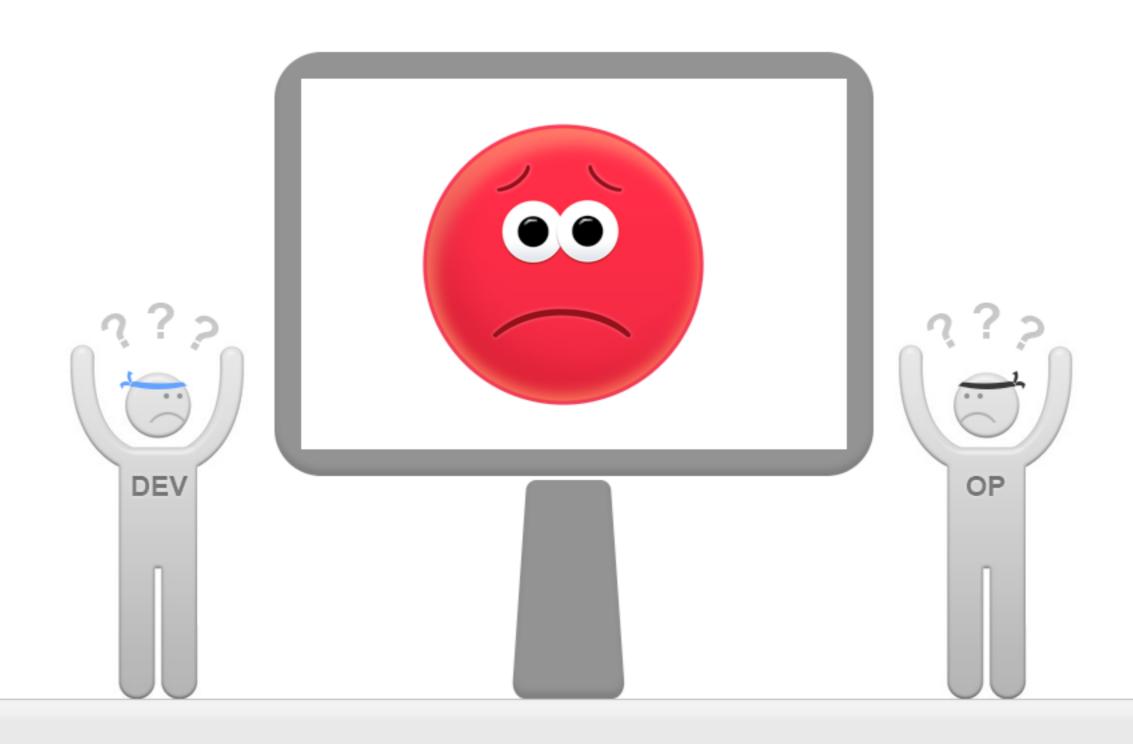

anotheria solutions

Why MoSKito

Why MoSKito

○ Health Monitoring
 is my app ok?
 do I have to worry about next night?

○ Performance Monitoring
 why is my app slow?
 will my app become slow?

○ Architecture Monitoring
 does it work how I intended it to work?
 how does it actually work?

anotheria solutions

TODAY

is my app ok?

anotheria solutions

- A picture is worth 1000 words...

  ... and live presentation is worth 1000 pictures.

Configuration

```json
{
    "name": "MyApp",
    "@components": [
        {
            "name": "app1",
            "category": "web",
            "connectorType": "HTTP",
            "location": "app1.prod:8080/moskitodemo"
        },
        {
            "name": "app2",
            "category": "web",
            "connectorType": "HTTP",
            "location": "app2.prod:8080/moskitodemo"
        },
        {
            "name": "app3",
            "category": "web",
            "connectorType": "HTTP",
            "location": "app3.prod:8080/moskitodemo"
        }
    ]
}
```

End of Data.

Thank you.
